

Sports facilities easily evaluated

Who?

- Lighting Engineers

What?

- Design software for creating external lighting schemes

Why?

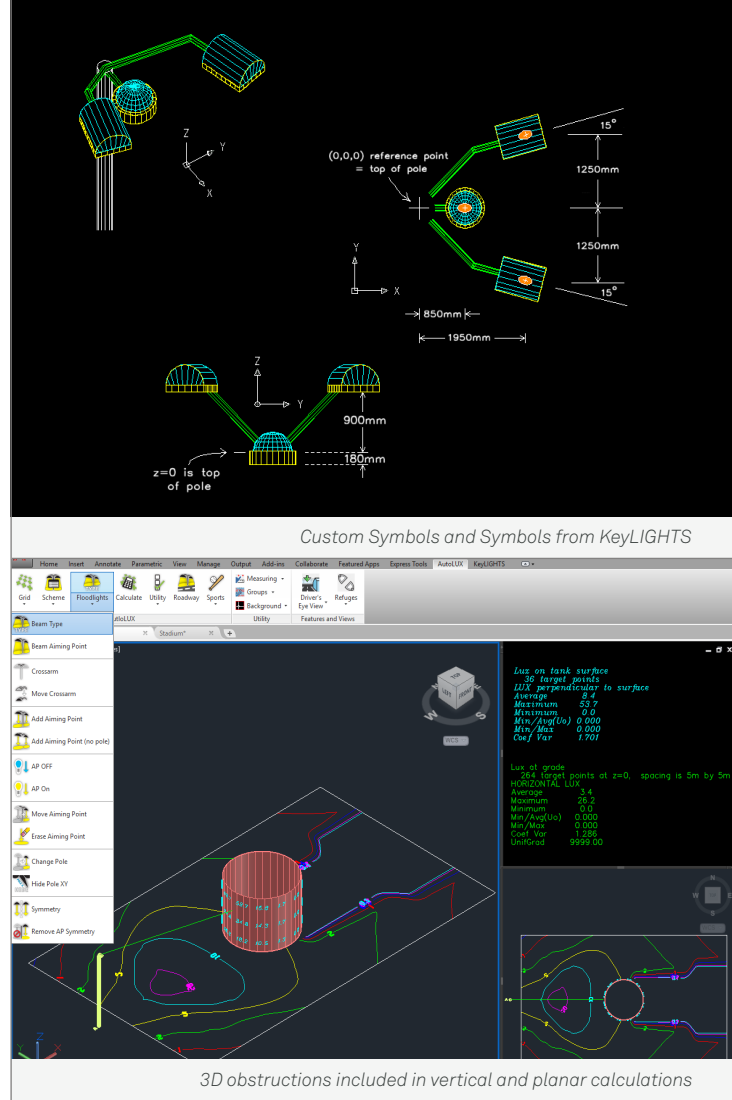

- Quickly and easily create external lighting scheme designs

Intelligent Lighting Design Software

AutoLUX is lighting design software, for creating working drawings of proposed sports field, roadway, and other outdoor spaces.

AUTOLUX AT A GLANCE

- Accepts photometry in IES, CIBSE Tm14, EULUMDAT, CIE or INR format
- Uses information in candela files to produce legend/ fixture schedule
- Draggable iso-templates
- Transoft Solutions support services include upgrades to your software and support via telephone, email and remote desktop
- Keep up to date with standards and legislation by attending training sessions and screen share events

WHY CHOOSE AUTOLUX?

AutoLUX includes a powerful fully featured lighting calculations engine. Light levels are dynamically generated from the photometric data files supplied for your luminaire symbols, with the opportunity to share them along with your drawing. AutoLUX helps you create sports field, roadway and other external lighting designs quickly and easily as luminaires and target points enter the drawing as CAD entities. Save time with the sports shortcut which constructs field outlines of popular sports at the click of a button. The roadway shortcut constructs roadway layouts from a few input numbers - choose from: IESNA, BS5489 or CEN. Restriction free AutoLUX retains the full power of AutoCAD leaving you free to design.

ABOUT TRANSOFT SOLUTIONS

Transoft Solutions develops innovative and highly specialized software for transportation professionals in the aviation and civil infrastructure industry. Since 1991, Transoft has remained focused on software solutions that enable professionals to plan and design efficient and safe transportation infrastructure with confidence. Our portfolio of planning, simulation, modeling, and design solutions, are used in over 130 countries serving more than 50,000 customers across local and federal agencies, consulting firms, airport authorities, and ports. We take pride in providing best-in-class customer support from our headquarters in Canada, and through offices in Sweden, the United Kingdom, the Netherlands, Australia, Germany, India, Belgium, and China.

HEAD OFFICE – Europe, Middle East, Africa
